

A wide-angle landscape photograph. In the foreground, three brown camels are walking from left to right across a green, grassy field. The middle camel is slightly ahead of the other two. In the background, there are rolling hills and a large, prominent mountain with a significant snow or ice cap. The sky is overcast with grey clouds. The title 'Animal Village' is centered in the upper half of the image in a large, white, sans-serif font. Below the title, the names 'Andrés', 'Bonnie', 'Emily', 'Eric', and 'Raphael' are listed vertically in a smaller, white, sans-serif font.

This morning as my herd moved onto pasture I found this goat down. She has lesions like these. When I try to make her stand up she limps and goes down again.

This could be FMD! Very contagious! You should isolate that goat and keep her away from your other animals so they do not get sick. Tell the veterinarian in your Soum center ASAP.
